Overview of Total Clinical Services................................................6  
Title X Administered Services by Clinic....................................7-9  
Fiscal Report...........................................................................................10
Let us start by acknowledging the reality: 2020 has been a wild ride. The Covid-19 global pandemic continues to impact our work and personal lives every day, and while it may have temporarily slowed us down, it is not stopping us from caring for our patients.

We could fill this entire page with all the new challenges that have presented themselves this past year, but would rather focus on the good. At FPCI we have a fully staffed team of caring, talented individuals. Our subrecipient network is represented with diverse agencies passionate about providing reproductive and sexual healthcare. This is the first year FPCI has had family planning patients served via Telehealth. While it is a very small number of patients, it is a start and FPCI is committed to exploring new and different ways to expand access to care.

It certainly feels like we are sprinting a marathon but in today’s uncertain world, the ability to adapt and respond to an ever-changing healthcare climate is now more important than ever. At FPCI we use the information in this report to analyze where we have been, and plan for improvements moving forward. We are looking forward to another year of meaningful work dedicated to meeting the sexual and reproductive healthcare needs of all Iowans.

Thanks,
Our Mission...
The purpose of Family Planning Council of Iowa is to provide quality reproductive health care and family planning services to all people in Iowa who desire such services.

Our Vision...
We envision an Iowa where sexual health results from responsible decision-making and access to care.

We accomplish our vision through:
- **BUILDING A POSITIVE COMMUNITY CLIMATE TOWARD FAMILY PLANNING**, including adequate funding, with services included in managed care plans as essential community health services.
- **ENCOURAGING AN INTERNALIZED UNDERSTANDING AND APPRECIATION OF SEXUAL HEALTH**, with informed decisions on reproductive health and health care.
- **ENCOURAGING FAMILY PLANNING AND EDUCATION**, as effective ways to break the cycle of unintended pregnancy, infant mortality, child abuse and neglect.
- **ENCOURAGING HEALTHY SEXUAL RELATIONSHIPS**, by preventing and treating sexually transmitted infections and their health consequences.

What We Do...
Our primary function is the administration of the Title X Family Planning Program. Our role is not that of a provider, but as a balanced voice regarding reproductive health care and family planning services and issues in the state. We are the administrator, the compliance officer, the sponsor, the trainer, and funder for family planning providers. We provide the means for Iowans to receive quality reproductive health care services.
Our Services:

**Title X Program**
- Clinical services are provided through a statewide service delivery system.
  - Contraceptive services
  - Screening for breast, cervical, and testicular cancer
  - Screening and treatment for sexually transmitted infections (STIs)
  - HIV & AIDS Testing

**Public Education & Advocacy**
- Health education on reproductive health care
- Resource support for clinic sponsored community education programs
- Public health education materials and parent-child discussion starters
- Public advocacy on health issues

**Professional Training**
- Statewide conferences and workshops on reproductive health issues
- Approved provider of Iowa Board of Nursing continuing education credits
